PROFESSIONAL SUMMARY

Motivated and detail-oriented MCA student with strong knowledge of **Python, Data Structures, Object-Oriented Programming, and Software Development fundamentals**. Experienced in developing Python applications including AI-based attendance systems and automation tools. Passionate about **AI/ML, full stack development (PYTHON), and problem-solving**.

WORK EXPERIENCE

Fresher
Software Development / Python

- Continuously improving software development and problem-solving skills through hands-on projects and coding practice.
- Actively learning AI/ML concepts using Python frameworks.

EDUCATION

University of Hyderabad, India 2025 – 2027
Master of Computer Applications (MCA) – Pursuing

Dr. APJ Abdul Kalam University, India 2021 – 2024
Bachelor of Computer Applications (BCA)

PROJECTS

AI Smart Farming Portal (Live Demo) *Full Stack Web Application*

- Developed and deployed a full-stack AI-powered Smart Farming platform to digitize farm management operations including crop, land, expense, and farmer record management.
- Implemented secure authentication, role-based access control, and database-driven modules using Django and SQL for efficient farm data management.
- Integrated machine learning-based crop recommendation and fertilizer suggestion systems using real agricultural datasets to provide intelligent farming insights.
- Designed responsive dashboards with analytics and integrated APIs for weather updates and real-time agricultural information.
- Implemented scalable backend architecture, testing practices, and deployment configurations for a production-ready farming solution.

ATS Resume Screening System *Python, Pandas, PyPDF2*

- Built an automated resume screening system to evaluate candidates based on required technical skills.
- Extracted and analyzed text from PDF resumes using PyPDF2.
- Implemented skill-based scoring and generated ranked candidate results with CSV export using Pandas.

SKILLS

- **Languages:** Python, C++, Java, C
- **Frontend:** HTML5, CSS3, JavaScript, Bootstrap, Responsive Web Design, UI/UX Design
- **Backend:** Django, FastAPI, REST APIs
- **Database:** SQL (MySQL), Database Design Basics
- **Libraries/Technologies:** NumPy, Pandas, Django, Basic Machine Learning
- **Tools:** Git, GitHub, VS Code
- **Core Concepts:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Problem Solving

CERTIFICATIONS

- **Python Programming** – Coding Seekho
- **Deloitte Technology Job Simulation** – Forage

ACHIEVEMENTS

- Secured **AIR 702** in NIMCET (National Level MCA Entrance Examination).
- Completed Deloitte Technology Job Simulation through Forage, gaining practical exposure to software develop-

ment and problem-solving.
